Bachelor in Electronics, Communication and Information Engineering, 2022 - present | Dharan, Nepal
IOE Purwanchal Campus (TU)
Currently in Third Year.

Projects

Hostel Management Website

We (a group of four friends) built a full-fledged web application for hostel management intending to help students from all over Nepal find hostels easily in a single place. We took it down due to the lack of a marketing team.

Destination Australia

With the increasing rate of people going for foreign employment to Australia, My brother and I created a website called Destination Australia  hoping to help people in Australia and those planning for Australia.

MERN and Next.js projects

Check them out on my github. 

Current Working Project

Destination Australia Web Application 

Interests

- Coding, Designing, Content Writing, Making Videos, Building PCs ...
